Available Minor Specializations

- Entrepreneurship
- Project Management

Major courses

- Accounting and Financial Reporting
- Enterprise Science
- Business Plan
- Competitive Strategies
- Corporate Finance
- Economic and Financial Analysis
- Human Resources Management
- Marketing / Management
- Marketing Research
- Operational Research
- Organisational Behaviour
- Project Management
- Quality Management

Quantitative Methods in Economics and Information Systems

This first-cycle programme provides core knowledge and competences in the field of quantitative methods in economics and information systems, as well as basic knowledge in the areas of economics, management and finance. Students have a decent selection of majors oriented towards widely understood quantitative methods in social, economic and business applications, as well as IT and the digital economy.

This programme helps to develop competences required for jobs in business entities and organisations which actively apply mathematical, statistical, econometric and information tools or useful in running one's own business. The programme also provides necessary basis for second-cycle studies.

Benefits

- Learn basic theories and their applications related to the following educational content: mathematics, in particular mathematical analysis and linear algebra; probability theory and mathematical statistics; research design and statistical analysis; demography; mathematical economics; econometrics; operational research; finance and insurance mathematics; computer programming; design of information systems; databases.
- Become knowledgeable about mathematical, statistical and econometric methods and tools which are necessary to analyse economic and social phenomena on a micro- and macroeconomic scale.
- Take part in many practical courses related to statistical, econometric and financial analyses, decision-making, demographics, insurance and IT.
- Be able to solve macro- and microeconomic problems using various analytical tools, and to use linear algebra in statistics, econometrics and mathematical decision-making models, as well as to design and conduct statistical research.
- Know how to construct, estimate and interpret estimation results of basic econometric models, and how to implement them.

Basic courses

- Accounting
- Basics of Law
- Economic and Social Policy
- Economic Geography / Economic History
- European Integration / Theory of the State
- Finance
- International Economics
- Introduction to Business IT
- Macroeconomics I & II
- Management / Management & Marketing
- Mathematics
- Microeconomics I & II
- Philosophy / Sociology
- Statistics

Available Minor Specializations

- Methods of Decision Analysis
- Econometrics

Major courses

- Algebra
- Business Informatics I
- Demography / Mathematical Economics
- Deterministic Models of Operation Research / Economic Statistics
- Econometrics
- Econometric Methods / Analysis and Design of Information Systems II
- Financial and Actuarial Mathematics / Analysis and Design of Information Systems I
- Mathematical Analysis
- Probability Theory
- Statistical Methods I
- Survey Methods

Master's Degree Studies

Programmes in English are available in full-time mode only. The schedule is flexible – students choose their class times and lecturers. The duration of each programme is two years (four semesters). Each programme is worth 120 ECTS in total, while the estimated number of hours is 960 (990 in the case Finance and Accounting).

When applying for admission to graduate studies in English, you should choose the particular programme during the registration process.

The complete list of learning outcomes, and major and minor courses.

Our offer

You may choose among four graduate programmes in English available at SGH:

- Advanced Analytics – Big Data
- Finance and Accounting with ACCA qualification
- Global Business, Finance and Governance
- International Business

General skills and competences

If you graduate from SGH, you will be able to:

- plan and execute research tasks
- communicate professionally with specialists in the field, as well as with people of different social or professional background

A graduate of the programme is eligible for employment as a specialist in advanced data analysis in manufacturing companies, banks, insurance and telecommunications companies, public administration and research centres specializing in advanced data analytics. The programme also provides necessary basis for PhD studies.

Benefits

- Become knowledgeable about computer science in the area of extracting, clearing, storing and processing of structured and unstructured data.
- Learn how to extract information from complex data structures and how to represent them in computer systems, and how to formulate and interpret results of data analysis.
- Gain knowledge regarding mathematical, statistical and computer methods and techniques of data analysis required in social and economic problem-solving.
- Be able to extract data from a variety of sources including databases, text files, multimedia files, social networks, sensor data, geolocation data.
- Know how to query SQL and non-SQL databases alike, prepare data for analysis, build models for data analysis using a variety of mathematical, statistical and computer science tools and formulate hypotheses and opinions using the models.
- Design representation research and conduct statistical analysis used in studying economic processes and phenomena.
- Analyse multidimensional data and apply the methods of multidimensional analysis in business and economic analyses.
- Become aware of the performed professional and social role, specifically in areas where mathematics, statistics, econometrics and computer tools are used, and set benchmarks for professional ethics.
- Understand and use the quantitative approach to describe economic processes, social interactions and business issues.
- Learn how to analyse spatial data and to adjust visualizations to the client's requirements.
- Learn to implement computer systems based on knowledge processing and to implement results of data analysis in business solutions.

Basic courses

- Business Law
- History of Economic Thought

Obligatory courses

- Advanced Business Analytics / Approximation Approaches
- Advanced Macroeconomics I
- Advanced Optimization Methods
- Basic and Advanced Programming in SAS with Statistics
- Big Data
- Cloud Computing
- Data Mining
- Databases Build and Exploitation
- Event History Analysis with SAS
- Institutional Economics / Labour Economics
- Logistic Regression with SAS
- Querying, Data Presentation, Data Visualisation and Reporting
- Statistical Learning Methods

Finance and Accounting with ACCA Qualification

This second-cycle programme provides knowledge concerning financial management of business entities, including financial institutions, with particular interest in the determinants of managerial decisions made based on results of financial analyses and research. The studies offer specialist knowledge providing solid basis for building one's professional career. They also develop.

Owing to the cooperation between our university and EY Poland, it is possible to obtain not only a Master's degree in Finance and Accounting from SGH Warsaw School of Economics, but also the ACCA qualification – an internationally recognised professional qualification.

Benefits

- Gain an appreciation of the impact of legal regulations, including tax regulations, on conducting business.
- Understand the impact of the monetary policy on financial markets and business entities, including financial institutions.
- Know how to apply advanced principles of financial accounting, as well as management accounting instruments, including cost accounting.
- Learn how to draw up financial plans of business entities, make thorough financial analyses, including those based on management accounting instruments.
- Master the ability to act efficiently under stress and time pressure.
- Formulate conclusions and recommendations, become able to competently justify the suggested solutions and decisions, also when being critical of them.
- Know how to combine financial issues with other business aspects in your analysis, for instance marketing or management, in order to calculate both the investment effectiveness and the cost of financing.
- Be able to determine together with determining the optimal investment portfolio or sources of financing, as well as to assess the level of financial risk and formulate conclusions and recommendations based on your analyses.

Basic courses

- Business Law
- History of Economic Thought

Obligatory courses

- Advanced Financial Accounting
- Business Ethics
- Cost Accounting
- Development Economics / Public Sector Economics
- External and Internal Audit
- Financial and Tax Law
- Financial Econometrics I
- Financial Engineering
- Investment Portfolio
- Management Accounting
- Managerial Economics
- Monetary Policy
- Strategic Business Leadership Skills

Global Business, Finance and Governance

This second-cycle programme provides advanced knowledge on the current, fast changing environment of international cooperation, finance and marketing. It builds on the first-cycle study by enhancing the analytical skills acquired there and adding an array of topics particularly relevant for handling managerial challenges in international trade and cooperation.

As a result, the graduates gain a deep and extensive understanding of the nature and functioning of international business and governance. They will be equipped to perform advanced analytical tasks involving corporate finances, logistics, sales and marketing and will be able to take up senior analytical posts in corporations as well as governmental and non-governmental units. The acquired managerial skills will allow them to pursue a career as managers or entrepreneurs in various international and organizational settings. The programme also provides necessary basis for PhD studies.

Benefits

- Gain skills and learn research methods applied in the field of Global Business, Finance and Governance, as well as related areas of expertise, including international business, international finance and international governance.
- Learn how to effectively solve problems arising in business and economics at international level.
- Understand econometric methods of economic data analysis and qualitative methods of analysis.

- University of Economics VSE (Prague, Czech Republic)
- EDHEC Business School (France)
- Toulouse Business School (France)
- Viadrina European University (Germany)

Why SGH?

Leader in Economic Education

SGH Warsaw School of Economics is the leading academic institution in economics and business in Poland. The quality of education gained at SGH is widely recognised by employers, who seek to recruit its alumni.

Foreign Languages

SGH Centre for Foreign Language Teaching (Polish: Centrum Nauki Języków Obcych; CNJO) offers high quality language courses in English, German, Russian, Spanish, French and Italian, as well as Polish for foreigners. The courses are focused on business-related topics, including current socio-political and economic issues.

The Centre has its own library and reading room at its disposal, containing dictionaries, thesauruses, and course books. Additionally, the CNJO media-library offers audio-visual aids for individual learning.

Academic Staff of Highest Quality

- Approximately 800 research-and-teaching and teaching fellows, including 87 professors
- practitioners, researchers, experts on the media, authors of specialised reports

Sports

Physical Education and Sports Centre (in Polish: Centrum Wychowania Fizycznego i Sportu; CWFIS) conducts PE classes. The PE offer includes aerobics, athletics, bodybuilding, Callanetics, Pilates, core training, partner dancing, boxing, karate, basketball, football, futsal, handball, volleyball, tennis, nordic walking, swimming, and sailing.

If there are any free places available, you may register for additional classes in order to learn new sport or increase your physical activity under the watchful eye of a trained professional.

Students may also participate in sport camps during winter and summer semester breaks. Apart from the above mentioned classes, our staff also conducts training sessions within many divisions of the SGH Club of Students' Sport Association, affiliating nearly 300 students.

Vibrant Environment

At SGH, various events take place almost daily, organised by students and staff alike. Everyone will find something to enjoy: meetings with the Nobel prize winners, presidents of multinational corporations, foreign researchers, members of the Polish government and state officials, politicians, media personalities and EU representatives. But it is not just inspiration and knowledge – you will have plenty of opportunity to enjoy yourself, too. Keep an eye on fun contests, parties and game nights organised by our community.

University in the Rankings

At SGH, we constantly strive towards perfection. Our on-going efforts are manifested by high positions in various academic rankings.

- In the Global Masters in Management ranking by The Financial Times, SGH was ranked among the best European economic universities worldwide.
- In the 2019 ranking by Perspektywy Education Foundation, SGH ranked 2nd among the economic universities in Poland; three of SGH programmes – Economics, Finance and Accounting, and Management – took top three positions in the ranking of economic programmes category; among Polish universities in general, SGH was ranked 15th.
- In the 2018 ranking by Rzeczpospolita, a Polish newspaper, SGH was ranked first as the university with the highest number of alumni who became presidents of the largest Polish companies.

International Quality of Education

We are a member of international organisations and networks:

- CEMS
- CEEMAN
- PIM
- EUCEN
- EFMD
- PECSA
- EUA
- EDAMBA

SGH is the only Poland-based academic member of CEMS (SGH administers CEMS Master's programme in International Management) and the only Poland-based member of PIM (Partnership in International Management) – the largest international consortium of leading international business schools.

We are also accredited by the following institutions:

- ACCA
- IQA (CEEMAN)
- AMBA
- CeQulnt

Broader Perspectives

As an SGH student, you may choose additional specialisations:

- SGH&CIMA Certificate in Business Accounting (CBA)
- SGH&CIMA Diploma in Management Accounting (DMA)
- SGH&CIMA Advanced Diploma in Management Accounting (ADMA)

Apart from multiple Double Diploma Programmes (described further in the prospectus), we also offer joint degrees:

- The European Master in Law and Economics
- The Models and Methods of Quantitative Economics (QEM)

more info: www.sgh.waw.pl/admission

Shape Your Future

Studies and Business

It is only natural that SGH, being a leading business economic university in Poland, operates in close partnership with numerous business entities. This cooperation applies not only to education and research, but also to issues connected with managing the institution.

Owing to the cooperation with our partners, SGH students may choose from a wide range of work placements and internships available during their course of study. It is also much easier for them to find employment in esteemed companies.

SGH partners also organise numerous workshops, lectures, and meetings at our University, which enable our students to meet with actual business practitioners. SGH also organises study visits in companies and manages various research projects and conferences. As a part of the partnership, we also develop SGH's infrastructure and know-how in the field of management and administration of out institution.

Due to cooperation with the members of SGH Corporate Partners Club, students may take part in Studying Practically programme that offers courses organized by SGH faculty members together with business partners. Apart from special semester-long courses, the SGH Partners also hold workshops and meetings for students.

To learn more about SGH Corporate Partners Club and Studying Practically course offer, please visit <http://firma.sgh.waw.pl/en>

High salaries of the Alumni

SGH strives to adequately prepare its students to meet the demands of the labour market – and with great success. According to a yearly report by the Polish Ministry of Higher Education and Science, recent graduates holding SGH diploma tend to earn more, on average, than alumni of other universities.

Career Development

SGH Career and Alumni Centre strives to advance the careers of the past and present SGH students. The Centre is also responsible for shaping and developing relations with SGH alumni, as well as for managing the SGH Career Portal – a platform for communication between prospective employers on the one hand and students and alumni on the other, providing up-to-date work placement, internship and employment offers, as well as valuable information concerning, among others, recruitment process, job looking, in-service training and preparation of application documents. The Portal also facilitates the consultation process with the SGH career counsellor.

If you want to know how SGH can help you to boost your career, go to <http://kariera.sgh.waw.pl/>

more info: www.sgh.waw.pl/admission

Prestigious university

Both SGH alumni and staff have been actively involved in shaping the economic and public spheres in Poland and Europe alike. Some of the most noteworthy examples include a former Polish prime minister and deputy prime ministers, the majority of ministers of finance after 1989, the first Polish commissioner in the European Commission, two presidents of the National Bank of Poland, members of the Monetary Policy Council, presidents of the Polish Stock Exchange, chairpersons and members of the Polish Financial Supervision Authority, government experts, advisors, as well as specialists serving the European Union, other European institutions, and the UN.

It is also common for SGH alumni and staff to hold position of presidents of the largest Polish companies, banks, insurance companies and other financial institutions.

Study Internationally

International Exchange

SGH participates in international exchange programmes for students and staff alike. Every year, nearly 500 SGH students complete parts of their study programmes abroad, and an almost equal number of foreign students study at SGH, out of which about 300 students are participants of the Erasmus programme. At present, SGH exchanges students with over 300 universities across the world.

Polish-German Academic Forum

Deutsch-Polnisches Akademikerforum is co-organised by SGH and two German universities: Johannes Gutenberg Universität Mainz and Universität Duisburg-Essen. The programme is available at Bachelor's studies, even from the first semester. All classes within the programme are conducted in German.

SGH-CIMA Programmes

SGH, in collaboration the Chartered Institute of Management Accountants (CIMA), offers interdisciplinary programmes in Polish and English available at the Bachelor's and Master's levels.

The programmes prepare students to take up better-paying positions in finance and accounting within international organizations. Owing to knowledge and skills developed in the course of CIMA specializations, students of such programme have a much better standing on the labour market.

SGH&CIMA Certificate in Business Accounting (CBA) is offered at the Bachelor's level, while both SGH&CIMA Diploma in Management Accounting (DMA) and SGH &CIMA Advanced Diploma in Management Accounting (ADMA) are offered at the Master's level.

Double Degree Programmes

SGH students may participate in Double Degree Programmes which enables them to obtain two academic diplomas in a single course of study. At present, SGH has 16 partner universities from the following countries: Canada, China, the Czech Republic, France, Germany, Italy, Portugal, Switzerland, as well as South Korea.

Qualifications to DDP programmes At Bachelor's level take place in the beginning of the second year of studies.

Qualifications to DDP programmes at Master's level are conducted before the beginning of studies at SGH.

- In spring: Berlin, Mainz, Duisburg.
- In August/mid-September: the remaining Master's DDPs.

Please note that DDPs are available to full-time students only.

CEMS MIM Programme

CEMS Master's in International Management is a one-year-long programme aimed at educating future leaders of international, multilingual and multi-cultural world of business. The programme is conducted by CEMS, the Global Alliance in Management Education which associates numerous business schools, as well as corporate and social partners.

The programme enables its students to obtain the CEMS diploma at the same time as the SGH one. In 2018, the programme was ranked at 9th place in The Financial Times ranking "Global Masters In Management".

SGH is the only university in Poland offering the CEMS MIM programme. In the academic year 2016/2017, SGH was named the CEMS School of the Year.

Student Life and SGH Campus

Studying is more than just gaining knowledge and at SGH, we are fully aware that the student life is a crucial part of the university experience. We are proud to say that our students are very active in this respect – owing to the initiative of various student organisations, you can take part in meetings and workshops, contests and – naturally – student parties. Many of these activities are hosted on the premises of our university, in its beautiful and historic setting.

Student organizations

There are several dozen student organizations of various profiles operating at SGH, which host hundreds of events and projects every year. The largest of them is the Students' Union, which is responsible for organizing Juwenalia SGH – an annual student spring festival – among other events.

More than half of student organizations at our university are Student Scientific Clubs, focused on expanding knowledge in a given research area. Students with artistic aspirations may consider joining our choir, theatre or song and dance group, whereas those more sport-oriented should definitely check out our Club of Students' Sport Association.

Joining student organisation gives you a chance to gain valuable experience and develop the skills

that will help you to thrive on the labour market. You may also establish valuable connections at various companies, institutions and among your peers.

Student Accommodation and Scholarships

SGH has two dormitories – “Sabinki” and “Grosik” – and you may apply for accommodation in one of them after you are admitted to studies. However, the number of beds is limited, so please be prepared to arrange for an alternative source of accommodation.

You may also be eligible for some form of financial support, for instance sport or academic achievement scholarship or a social grant.

For more information on accommodation and scholarships, please visit our website.

University Campus

The campus is a perfect blend of tradition and innovation. When studying at SGH, you will be surrounded by the beautiful historic architecture of Building A, the main building and the library on the one hand, while on the other – you will experience the comforts of state-of-the-art classrooms in Building C.

One of the great advantages of our campus is that it is quite compact. As a student, you do not even need to use any transportation in order to move between the buildings, as everything is conveniently located within walking distance.

Owing to its location in proximity to the city centre, SGH campus is also very accessible. The main building, the library and Building A are all located next to the Metro station Pole Mokotowskie, as well as bus and tram stops.

Classes are conducted in four buildings:

- Building G (main building) – al. Niepodległości 162
- Building A – ul. Rakowiecka 24
- Building C – al. Niepodległości 128
- Building W – ul. Wiśniowa 41

Other on-campus locations include:

- Building B (library) – ul. Rakowiecka 22 B
- Building M – ul. Madalińskiego 6/8
- Student House (dormitory) no. 1 “Sabinki” – al. Niepodległości 147
- Student House (dormitory) no. 3 “Grosik” – ul. Madalińskiego 31/33

Study in
English

Open Day

Open days at SGH are held in October and March on a chosen Saturday. The agenda includes various activities in English, during which you may:

- learn more about terms of admission,
- attend lectures and workshops,
- meet and talk with SGH students,
- see our full educational offer,
- take a campus tour,
- ask burning questions to SGH staff.
