Building a better
working world

THE OPPORTUNITY

It is now possible, for the first time in Europe, to take up a programme in Warsaw and obtain not only a Master's degree in Finance and Accounting from the Warsaw School of Economics (SGH), a world class university, but also obtain the ACCA qualification, an internationally recognised professional qualification.

NOT JUST A RECOGNISED MASTER'S DEGREE
IN FINANCE AND ACCOUNTING

Our Master's studies in Finance and Accounting at the Warsaw School of Economics (SGH) provides:

- finance oriented knowledge which enlarges the knowledge of financial management of business entities, including financial institutions,
- expert knowledge giving good basis to practice professional work and to continue further education,
- competencies that enable work as an expert or manager in a given field of finance or accounting or business self-employment,
- certified/licensed qualifications in Poland and abroad with preparation to take up the Phd studies.

Our graduates will be recognized on the international labour market by outstanding knowledge and practical skills. Our continuous effort to raise an education students enabled us to reach professional heights like the ACCA qualification.

The programme is accredited by ACCA and offers full support and resources to enable candidates to complete their ACCA examinations before they graduate from university. The programme is led by Warsaw School of Economics (SGH) and Ernst&Young Poland and it is intensive, interactive and case study based. This is a full time programme.

The ACCA Qualification is one of the most highly respected international business qualifications all around the world. A very large number of international companies see it as a credible and comprehensive business qualification providing a wide spectrum of skills and tools.

From the early stages of a young person's career, ACCA equips them with highly practical, analytical, financial and management skills which help them immediately and directly in their everyday work. Employers are therefore in constant search for such individuals.

ACCA is showing an unprecedented rate of growth in many countries and industries and students that are interested to make a successful career in business will find that being members of ACCA will give them an immediate comparative advantage in any market and any industry they wish to work.

Graduates of the programme are exempt from nine ACCA papers and prepared to pass another five.
